*Are you aware that...*

The average home spends about \$2,200 on energy bill every year?

### UPGRADE....

To appliances that earned the ENERGY STAR, and you could save \$80 a year per appliance in energy cost, while protecting the environment.

### PLUS....

The City of Goodland will give you a \$50 rebate!

For more information and program rules please contact the City of Goodland or go to [www.cityofgoodland.org](http://www.cityofgoodland.org).

**\$50.00 Energy Star Appliance Rebate Program**

## TIP OF THE MONTH!

The best time to water is early in the morning. Why? Because you'll lose the least amount of water to evaporation, which can set in as early as 10am in especially warm climates. If you absolutely must water later because your plants are gasping for it, make sure to water slowly and deeply around their roots to keep as much water going where it needs to as possible.

**Know what's below.  
Call 811 before you dig.**

Construction projects such as installing decks, fences and tree planting are another sign of spring. Homeowners are reminded to contact Diggers Hotline before you dig by simply dialing 811 from any land line or cell phone. Homeowners are also reminded that they must allow 3 business days (not including the day the request is called in) for all their utilities to be located before they dig, and should plan their projects accordingly. There is no cost to the homeowner to contact Diggers Hotline, who will then inform all utilities with buried facilities, such as water, sewer, gas and electric utilities, telephone and cable companies of your intentions to dig in a specific area.

# Spring Fever - Spring Safety Tips

When Spring Fever hits, it usually means lots of grilling, entertaining, and cleaning. During this time it is also important to ensure your own safety by considering a few safety precautions for you and your family.

When Daylight Saving Time begins, setting your clock forward means it's time for a seasonal safety check. As you go around the house setting clocks ahead, take the time to make these safety checks!

*Check the batteries in your home smoke detectors. Get in the habit of changing your batteries in smoke detectors and carbon monoxide detectors every fall and spring when you are changing your clocks.*

*Check the medicine cabinet. Check and properly discard of expired medications. Check your local drug stores, some drug stores take them back or look to see if you area has a "drug take-back program".*

*Check your first aid kit and /or emergency preparedness kits. Check batteries, expiration dates, supply levels of the items that you keep in your kits.*

*Change or clean air filters. Dirty air filters make your heating system less efficient and can also cause a breakdown in your system causing a fire.*

*Check tire pressure, tread, and lights and signals on your car to make sure everything is working or in good condition.*

The City of Goodland is now accepting applications for the 2016 Summer Season at Steever Water Park

To obtain an application, stop by City Hall, 204 West 11th  
7am - 4 pm  
Monday - Friday

**To obtain an application, stop by City Hall, 204 West 11th from 7 am - 4 pm, Monday - Friday**

**Applications take until positions are filled. E.O.E.**

## Chamber News Corner

The Goodland Farmers' Market was established around 1995 by a group of local farmers seeking to offer fresh, locally grown produce. Because of the passion and dedication of these original farmers, the Goodland Farmers' Market continues to provide fresh, locally produced vegetables, baked goods, jellies, jams, as well as farm-fresh eggs. If you wanted your groceries any fresher, you'd be in the field, harvesting produce. The Goodland Farmers' Market is always looking for new vendors. If you are a gardener, producer, artisan or youth group in the Tri-State area, we would love to get to know you!

For information on how to become a vendor or hold a youth fund-raiser at Market, please call or email:
